Users are any individuals who have logged into our website and created accounts to quote or order products and services from us. This includes organisations utilising our site to manage their schemes.

4.1 What information do we collect and process?

We receive information from you when you register with us, search our website for a vehicle, request a quote for a vehicle, order a vehicle from our site or communicate with us by phone, e-mail, live chat or otherwise.

The personal data you provide may include your name, postal address, e-mail address, phone number, date of birth, salary, username & password, IP address, title and marital status, NI Number, Driver's Licence number, Vehicle details, Payroll/Employee ID, digital signature (via DocuSign), financial and payment information, employment history, credit history, identification records and other information about yourself. This information is required to enable us to provide you with a vehicle or other related services and without this information, we may not be able to offer you some of our products and services.

You may also provide contact details and other personal data when you voluntarily participate in a competition, special offer, promotion, or survey or where you provide feedback on our products and services. You are not required to provide any such information in these circumstances, and this will not affect any of the services which we may provide to you.

We also collect information from other sources:

- Financial/Credit Information – We will use information provided by credit reference agencies when assessing your finance application and to verify your or, if applicable, your representative's identity. Such information may include some details about other credit you have taken out, any credit arrangements you have met or failed to meet, and any county court judgments made against you.
- Fraud Prevention Agencies – When verifying your identity as part of your application process, we may access information recorded by fraud prevention agencies within and outside the UK. This may include information about any criminal convictions and any allegations regarding criminal activity that relate to you.
- Driving Licence Checks – we use information provided by Driving Licence agencies when assessing your application. Information may include details of any points on your licence.

4.2 How is your information used?

We will use your information to manage your account with us, process any requests for quotes or any orders that you have submitted and carry out our obligations arising from any orders that you have entered.

We may use automated decision-making regarding your data for elements of our services and products, for example, to generate a list of vehicles for you, undertake driving licence checks and generate quotes for vehicle insurance.

Credit Scoring & Crime Prevention

We use a selection of different funders to provide credit/finance for vehicles. During the ordering process, your personal information will be passed to a carefully selected funder so that an evaluation of affordability and an assessment of suitability for credit can be carried out.

We only allow funders access to the minimum amount of personal information they need to perform a credit search and to provide finance to you. This includes your name, address, phone numbers and email addresses, date of birth, marital status, postal address, driving licence number, bank account information, employment history and salary.

Your information will be used:

- For making a credit check on you. Funders may carry out a search with a credit reference agency that will keep a record of their enquiry against your name and may be linked to your representatives (“associated records”) for any application for products or services from us, you may be assessed against “associated records”. Where any search or application is completed or an agreement entered involving joint parties, Funders may record details at credit reference agencies, as a result, an “association” will be created that will link your financial records. Details of which credit reference agency funders have used are available on request from Drivespeed Leasing Limited. Funders may also add to your or, if applicable, your business’s, record with the credit reference agencies details of your agreement with them, any payments you make under it and any default or failure to keep to its terms. These records will remain on the credit reference agencies’ files for 6 years after our agreement with you is settled or terminated whether settled by you or, if applicable, your business or by way of default. These credit reference agencies may create, or add to, their record about you, or, if applicable, your business, details of our search and your application. This and other information about you or, if applicable, your business and those with whom you are linked financially may be used to make credit decisions about you or your business;

- Funders may use credit scoring techniques and automated decision-making systems to either fully or partially assess your information. These credit-scoring techniques and automated decision-making systems may consider any previous applications for finance, defaults or existing debt. The results of this decision may decide whether we provide you with our services or not. If you disagree with the results of an automated decision, you can request a review of your application;
- to allow funders to detect and prevent fraudulent activity including sharing personal data with fraud prevention agencies;
- to allow funders to detect and prevent money laundering or terrorist financing activity; and to manage and administer monthly payments under any agreement made with you, including recovery of any outstanding debt.

You can send us a request to review the accuracy of a decision that you are unhappy with by contacting us by email: sales@drivespeedleasing.co.uk or by telephone: 01904 682 892.

Where you participate in a competition or complete a survey, we will only use your information for the purposes notified to you in connection with such competition or survey.

Where you provide feedback (whether by phone, e-mail, LiveChat or otherwise), we may use such information to improve our services to you.

Our website may contain links to other third-party websites of interest. However, once you have used these links to leave our site, you should note that we do not have any control over that other website. Therefore, we cannot be responsible for the protection and privacy of any information which you provide whilst visiting such sites and such sites are not part of this privacy statement.
